OBJECTIVE

Enthusiastic and dedicated B.Tech Computer Science student with a strong grasp of programming principles and a proactive approach to problem-solving. Strong command of C, Python, and academic project work, with a passion for software development and continuous learning. Looking for an internship opportunity to learn and apply technical skills, collaborate with innovative teams, and gain hands-on experience in a fast-paced tech environment.

EDUCATION

B.Tech in Computer Science, Saveetha School of Engineering, SIMATS, Chennai
CGPA: 9.5/10

Expected 2027
Tamilnadu, India

Intermediate (MPC), Sri Chaitanya Junior College
Percentage: 98%

2021 - 2023
AP, India

High School Education, Vijaya Bharathi High School
Percentage: 100%

2021
AP, India

SKILLS

Programming Languages	C, C++, Python
Developer Tools	Google Colab, VS Code, Github
Tech Stack	HTML, CSS, Streamlit, NLP, OCR, Machine Learning
Academic Coursework	Data Structures, Operating Systems, CN, Software Engineering, Cloud Computing

CERTIFICATIONS

Internet of Things : NPTEL

Machine Learning : NPTEL ([View](#))

PROJECTS

AI-Based Invisible Gesture Unlock System: Capstone project aimed at developing a secure file access system using invisible hand gestures for authentication. Leveraged Arduino Uno, APDS-9960 gesture sensor, and Python to create a real-time interface for unlocking files. Included LED indicators and embedded AI. ([GitHub Link](#))

AI Legal Document Analyser : Developed and deployed an AI based Legal Document Analyzer using Streamlit that automates contract analysis by extracting key clauses, identifying potential risks, and improving legal document review efficiency using NLP and OCR techniques. ([GitHub Link](#))

Personal Portfolio Website : Designed and developed a personal portfolio website to showcase projects, technical skills, and deployments. Successfully deployed the portfolio using AWS s3, ensuring scalability, high availability, and static website hosting. ([GitHub Link](#))

ACHIEVEMENTS

Best Poster Award - TECH STAR SUMMIT 2025: For presenting “Enhanced Energy Optimization Prediction Accuracy in Smart Factories Using LSTM and XGBoost.” ([Link](#))

Internship Seminar: Completed seminar on **Discovering Digital Dynamics** at **Askan Technologies Pvt Ltd**, September 2024

Startup India Boot Camp Internship: Participated in a 5-day internship and leadership training organized by Sparks Team in association with School of Leadership, supported by MSME and Startup India. (January 2024)
